

To Whom It May Concern:

We would like to recommend Nikola Aleksic as a candidate for a position with your company. In his position of a 3D architectural visualization specialist, Nikola was employed in our office from August 2015 – May 2017.

Nikola is an avid expert in 3D architectural visualization. He did an excellent job in this position and was a valuable asset to our organization during his tenure with the office. He is well organized, has excellent 3D modeling skills, can work independently, and is able to effectively multi-task to ensure that projects are completed in a timely manner. Nikola is well informed about the latest trends in architectural design and was capable of accomplishing tasks for many international projects in various locations and of various types. He is a team player with ability to effectively join the project team and offer his skills complementing other people involved in the production. In addition, Nikola was always willing to assist his colleagues and had an excellent relationship with other employees in our office. Nikola is a hardworking employee and fully dedicated to the job and the company. He has always put an extra effort and time to accomplish tasks and meet the deadlines.

We strongly recommend his application to any job position in connection with skills and values described above.

Sincerely,

Natasha Varnica

To whom it may concern:

It's my pleasure to provide this letter of recommendation for Nikola Aleksić. Nikola started working for us as a part-time Architectural Technician in 2006. and was full-time employed in our office from 2008. to 2015. as an Architectural Designer. During this time, I was his direct manager and I've worked closely with him over the years.

At Novi Plan Nikola was a part of many architectural projects, as team member and later on as a lead. Design, organisation and communication within the team and outside with clients and associates were only some of his duties which he performed professionally and admirably.

Through technical expertise, fast learning and creative and unique solutions Nikola has showed he is capable of rising to the challenge of modern day realities of deadlines, special design requirements, changing conditions and staying current with technology, materials, and design.

His affinity for tackling complex design and technical problems methodically and thoroughly has truly been a great asset to our company. Nikola has consistently been a versatile and strong employee, always dependable and incredibly hard-working.

His contribution was not limited to only professional skills, Nikola is kind, willing to lend a hand and an all-around great person.

I am confident that Mr. Aleksić will be a very valuable asset to your company like he was to us.

Sincerely,

Dragan Jovanović

To Whom it may Concern

Subject: Recommendation for Mr. Nikola Aleksić

I take a great pleasure in writing the recommendation letter for Mr. Nikola Aleksić.

As the Director of architectural studio for design, engineering and consulting SB project, I've had the chance to get to know the work of Mr. Aleksić. In his position of a Architectural Designer and 3d visualization specialist, Mr. Aleksić was employed in our office for 5 months.

Mr Nikola's specific multidisciplinary approach to work, cutting-edge ideas and commitment helped him achieve exceptional results in his education and profession. He is an architect dedicated to the research of new technologies and design. He is very communicative person with the experience in the programs of international calibre.

He has been an outgoing and appreciated colleague as well as an enthusiastic and competent professional.

I hereby give Nikola Aleksić my best recommendation.

Faithfully,

Svetlana Brkić
Director
